Free Listing For All Tourism Destinations

Any tourism destination, attraction or business wishing to attract new visitors can create a free basic listing on GuidepostUSA™, America's most comprehensive tourism search website. A basic listing includes the name of the business or attraction, a short description, address, phone numbers and an imbedded, interactive map to the location. Online trip planners can then search listings by keyword, category, theme, location and/or route, including U.S. Interstates.

Premium listings, which include a more detailed description with photos, logos, links for email and websites and many other features, are available for a low annual fee of \$50. As a Leap Year Special, premium listings are only \$29 through February 29, 2008.
